

# MULTI-SEAT Streaming License FAQ's

1. What is the multi-seat streaming license?

The multi-seat streaming license is a self-administered online streaming product that allows an administrator to grant access to multiple users within his/her organization.

2. How do I purchase the multi-seat streaming license?

You can purchase online at [blackhatbriefingsonline.com](http://blackhatbriefingsonline.com) at our sales stand or you can email [sales@sok-media.com](mailto:sales@sok-media.com)

3. What is included in the multi-seat streaming license?

You can purchase multi-seat licenses for individual events or you can purchase access to BlackHat events for a year (Asia, USA and Europe). Additionally, you can purchase access to DefCon and BsidesLV as part of the "Security Summer Camp" special.

4. How many seats can I purchase?

You can purchase as few as 2 seats and as many as 50.

5. What is the cost for each additional seat?

Seat 1 is listed on the order form or online.

Seat 2 is 50% more than Seat 1. So, if Seat 1 costs \$599, then Seat 2 costs \$299 for a total of \$898.

Seats 3 – 9 are 25% more than the Seat 1 price. If you purchase 3 Seats the cost would be  $\$599 + 299 + 149 = \$1047$  and each additional seat through 9 will cost \$149.

For 10 or more licenses, please contact [sales@sok-media](mailto:sales@sok-media) so we can arrange for additional discounts.

6. How are users "designated" – added, deleted?

Upon purchase, an administrator is set up. This person will have access to our administrator portal and can designate additional users, delete users, and grant user access to specific events. If the administrator has designated a user and that user leaves the company or division, he/she can re-assign that seat to a new user via the portal.

7. How long will the licenses be active?

The 2017 licenses will be active until at least December 31, 2018.

8. Can I purchase the USB drive as well as a multi-seat license?

Yes that option is also available.
